JLR RETAIL APPRENTICESHIPS

DRIVE YOUR CAREER FORWARD WITH A JLR RETAIL APPRENTICESHIP

The JLR retail apprenticeship programme takes place over one year (for commercial roles) or three years (for the technical role) depending on your chosen route. You will be working towards nationally recognised qualifications, brand specific certifications and functional skills certificates, all while gaining invaluable experience working at one of our prestigious retailers.

SERVICE TECHNICIAN

Our Service Technicians are equipped with the latest technology, in pristine environments. You will be servicing and maintaining the latest JLR products.

You will need to be logical, great at problem solving and have an interest in new technology.

PARTS ADVISOR

The Parts Advisor interacts with all areas of the business including sales, service and customers. While you won't be fitting parts yourself, a technical interest is essential to help you understand what you are selling and to coordinate stock and tools. You will work in conjunction with the Sales and Service departments to ensure an efficient flow of work through the workshop.

CUSTOMER SERVICE ADVISOR

As a JLR Service Advisor, you are the first point of contact with our customers. Using your excellent interpersonal skills you will provide the highest level of customer service. Key aspects of this role include: taking service bookings, explaining work needed to be carried out, providing advice on vehicle needs and taking payments.
